MEMORANDUM FOR: Deputy Director for Intelligence

SUBJECT:

Survey of Current Intelligence Publications

- 1. I note from reading the study prepared by the IC staff, subject as above, that in addition to a sizeable number of copies distributed internally, our external dissemination in April of this year included 67 copies of the CIB Black Book, 212 copies of the Red Book, and 411 copies of the Secret version.
- 2. In view of our concerns about leaks of intelligence, I suggest it would be timely to reexamine our distribution lists for both the Black and Red Books to make certain dissemination is based on true "need to know" guidelines.
- 3. I understand you have been provided a copy of this study as a member of the NSCIC Working Group and that the Group will be discussing the paper at its 3 October meeting, but I would like to have this examination of CIB distribution made as a separate matter.
